EXPERIENCE

Malon Global Technologies, Lagos— Front-End Developer

November 2019 - PRESENT

Worked with UI and backend developers to build web applications for the company. I contributed by:

Converting UI designs into mobile responsive front end components with readable and reusable code.

Developing the front end aspect of web applications with HTML5, CSS3, SASS, Bootstrap 4, Vanilla JS, JQuery, Typescript, React, Angular 8 and other libraries as needed.

Ensure data sent to the servers are validated as appropriate.

Work with the team to identify and resolve bugs in the applications being worked on.

HNG INTERNSHIP 6, Remote— Front-End Developer

September 2019 - November 2019

Worked with a team to develop the front end aspect of two web applications using vanilla js and react.

Jumia Nigeria, Lagos— Customer Service-Issue Resolution

October 2018 - March 2019

Attend to and proactively resolve customer issues via calls, emails, and/or social media in order to boost customer loyalty. Provide regular updates on products and services to the customers via the aforementioned platforms. Upsell and cross sell to customers.

SKILLS

- Programming: HTML5, CSS3, SCSS, BOOTSTRAP4, JavaScript(ES6), TYPESCRIPT, REACT, ANGULAR, PYTHON.
- Content Development.
- IT Support
- Structured thinking.
